ROME August 15.—Italy and Austria are near a serious rupture of relations following Italy's refusal to permit four Austrian army corps to cross Italian territory to re-inforce the German Army in Alsace. Austria's demand was based upon its interpretation of the existing treaty. The Italian Foreign Office refused, and declared that Italy intended to preserve her neutrality at all hazards.

COPENHAGEN, (via London,) Aug. 16.—According to a special message from Berlin 23 Russian Generals and Admirals, including the former Commander-in-Chief of the Black Sea fleet, have been interned by the German authorities.

WASHINGTON, Aug. 15.—The United States Government announced itself today as opposed to the floating of loans in this country for the benefit of any of the belligerent powers of Europe.

Switzerland, a neutral country, inquired through her charge d'affaires if she might float a loan in the United States, and was informed that the restrictions would not apply to neutral countries.

J. P. Morgan & Co. was approached by a group of private bankers who wished to know if a loan even should be desired by the French Government whether it could be floated in the United States. The Morgan firm announced that regardless of its legal right to engage in private commercial transactions at its own risk, it would take no action which the State Department might disapprove. Inquiry was made of Secretary Bryan several days ago by the bankers as to what the attitude of the American Government would be. Today the Swiss charge d'affaires also presented an inquiry.

LONDON, Aug. 15.—A Malta dispatch to the Reuter Telegraph Company says the German cruisers Goeben and Breslau were pursued by British warships until they actually entered the Dardanelles.

BERLIN, Aug. 15.—The necessity for Americans returning to the United States seem to be less urgent now. A special train which left the capital yesterday bound for Holland was not filled to its capacity with tourists, but at the same time many wished to return as soon as the opportunity offers. Germans everywhere are very hopeful.

LONDON, Aug. 15.—The Brussels correspondent of the Star says a Belgian officer who escaped from Liege brought details of the death of Gen. Von Emmich. The officer declared that Von Emmich committed suicide. The correspondent said that Von Emmich's confidence in the German army and his style of fighting was shattered by the events around Liege.

LONDON, Aug. 15.—The Central News correspondent at Brussels who has returned from the front estimates that the German losses in killed throughout the fighting against the Belgians so far amounts to fifteen thousand.

WASHINGTON, Aug. 17.—President Wilson declared today he had no reason to question the good faith of the declaration of Japan in promising to observe the integrity of China in connection with the Japanese ultimatum to Germany demanding the surrender of Kiau Chau to the Japanese Government. The President would not discuss the ultimatum, saying that one of the duties of neutrality was to have no opinion of what other nations were doing.

LONDON, Aug. 17. (Associated Press Cable).—Official dispatches say Greece has received information that the Turkish troops are crossing Bulgarian territory and marching in the direction of Greece. The Hellenic Government, in consequence of these reports, has notified Turkey that if this news should be confirmed, corresponding military and naval measures will be taken immediately by Greece.

BROTHER SHOTS BROTHER

Nelson Gay, a fourteen-year-old colored boy, was shot and instantly killed Saturday afternoon, on the farm of Mr. E. K. Thomas, near North Middletown, by his brother, Joe Gay, aged thirteen. The killing was purely accidental.

The boys, whose parents are tenants on the Thomas farm, had secured a shot gun belonging to their father, Gene Gay, and were out in the front yard of their home shooting bullbats. The older Gay had just reloaded the gun with two shells, and was in the act of raising it to his shoulder when it was accidentally discharged, the entire load taking effect in the head and right side of the younger brother, who fell to the ground and expired almost instantly. Coroner Rudolph Davis, of Paris, was immediately notified, and accompanied by Deputy Sheriff Gibson, went to the scene. The boys' parents were eye-witnesses to the shooting, which was purely accidental, and the Coroner, after hearing their testimony, decided no jury investigation of the case was necessary, and made his report in accordance with the facts.

CAUGHT IN STEEL TRAP, THIEF MANAGES TO ESCAPE

For some time Mr. James Batterton, who conducts the ice cream works, near the old Midland depot, on South Main street, has been missing quantities of cream, which disappeared from other causes than leakage. At one time the thief or thieves, got away with ice cream, freezer and all. At times freezers left in the wagons under the wagon shed with a quantity of cream disappeared almost before the driver reported to the office. Last Thursday night Mr. Batterton secured two steel traps and set them just under the surface of a partly filled freezer which had been purposely left in the shed. About half an hour afterward the air was filled with screams of agony, and Mr. Batterton, securing a revolver, hurriedly made his way to the wagon shed, but the thief had managed to release himself and escaped, leaving no clue. Mr. Batterton sat up for an hour or two awaiting for the thief to return and get the other trap, but without result. In the meantime the police are searching for a man or boy with a maimed hand, and Mr. Batterton has not lost any more ice cream. He has traps ready for active service again, if needed.

A CASE FOR THE CIVIC LEAGUE.

The old Baptist church property, which was purchased some years ago by the firm of Kress & Co., who announced that they would immediately erect a fine business house on the site, has since that time become anything but a thing of beauty. The lot is full of rubbish, in full view of Main street, and has been in that condition so long that it has become an eye-sore. The attention of the Health Officer and Civic League is called to the fact that the lot referred to is overgrown with rank weeds and other vegetation affording a convenient hiding place for refuse of all kinds, and contributing to make the place about as unsightly as a Coney Island beach after a storm. The site of the contemplated Y. M. C. A. building is also falling into disrepute and keeping bad company with the weeds. Remember we had a cleaning-up day some months ago! Rather spasmodic, but did some good. Let's have another one!

POPULAR BALL PLAYER MARRIED.

A marriage that will prove of interest locally and elsewhere in the base ball world took place in this city yesterday afternoon, when Rev. J. S. Sims, of the Methodist Church, united in marriage Mr. Herbert C. Dawson, of Lexington, well-known as "Hub" Dawson, and Miss Mary Dozier, of Versailles. The couple came to Paris yesterday afternoon from the home of the bride in Versailles, and, after the bride had made the customary affidavit as to her age, a marriage license was granted by County Clerk Paton. Rev. Sims was found in his study at the Methodist church and the ceremony was performed there. Mr. and Mrs. Dawson left on the 3:45 interurban car for Lexington. It is said that objections on the part of the bride's parents impelled the couple to seek Paris as a Gretna Green. The groom is well-known throughout the Bluegrass region, having for many years been catcher for the Richmond team in the Blue Grass League, later going to the St. Paul team of the Northwestern League, and eventually returning to Kentucky where he reentered the field as catcher of the Lexington team in the Ohio State League. His bride comes of a well-known Woodford county family.

TO GO TO CALIFORNIA.

Dr. Clara Matthews, who has for several years been conducting an optician office in this city, with her office in the Deposit Bank building, will close out her business interests here, and go to California to reside. This move is being made upon the advice of her physicians, the state of her health being such that a change of climate has become imperative. Dr. Matthews will visit her daughters in San Francisco for a short while. In this issue of the News she advertises her office furniture for sale. During her residence here Dr. Matthews has been signally successful and her business has increased steadily.

Dr. Matthews will be in her office for several days yet, ready to test eyes and wait upon her customers.

WAR AFFECTS PARIS MARKETS.

Although very remote from the scene of the European conflict, Paris (Ky.) is feeling in some degree the stringency in the money market and the increased cost of foodstuffs, which is causing a general protest all over the United States.

There is a general outcry against the increase in the prices of certain commodities, for which there seems to be no reasonable excuse. Retailers have to protect themselves, it is admitted, but it is against the large wholesale companies who have put up the prices that there is so much feeling.

Hogs are said to be cheaper than they were several weeks ago, and yet frash pork is selling at 23 cents a pound, which is an advance of 2 cents, and the wholesale price has advanced even more.

Beef, veal and lamb remains the same, from 15 to 18 to 20 and 25 cents for choice cuts. Lard is still retailing at 15 cents.

Flour has advanced 60 cents on the hundred pounds. A month ago it was selling cheaper than had been known for a long time, but now it costs consumers \$1.70 for fifty pounds, notwithstanding the fact that there is more wheat in the country than for years, and local dealers are paying only 75 cents a bushel for it.

Sugar is another necessity that is rapidly advancing in price, selling at 9 cents a pound, 11 pounds for \$1, and \$7.75 a hundred.

Fresh vegetables are selling at fairly reasonable prices—corn at 15 and 20 cents a dozen, potatoes at 40 cents a peck and tomatoes at \$1.50 per bushel.

BOURBON WOMEN ORGANIZE LOCAL OPTION LEAGUE

A large and enthusiastic audience of Bourbon county women met in the county court room in the Bourbon County Court House, Thursday, and perfected an organization called the Bourbon County Women's Local Option League.

The following officers were elected to serve in their several official capacities during the life of the League:

Miss Mayme Spears, president; Mrs. C. O. Hinton, secretary; Mrs. M. H. Dailey, treasurer; and eight vice-presidents, one from each of the large precincts in the county: Mrs. J. T. Vansant, Paris; Mrs. Ed. Taylor, Millersburg; Mrs. John T. Collins, North Middletown; Mrs. L. A. Soper, Little Rock; Mrs. R. C. Talbot, Clintonville; Mrs. J. J. Dickey, Hutchison; Mrs. J. W. Ferguson, of Shawhan, Riddles Mills; Centerville to be supplied.

Those vice-presidents are also chairmen of membership committees, whose duties shall be to increase the membership of the League. For the same purpose, chairmen were also appointed in fourteen districts of Paris.

A number of plans were discussed, and helpful suggestions were offered by Rev. J. D. Redd, of Millersburg, and Rev. J. J. Dickey, of Hutchison, who were present with their wives.

SERIOUS FREIGHT WRECK; CYNTHIANA BOY KILLED

North-bound fast freight No. 42, on the Louisville & Nashville road, was wrecked near Yuma, in Pendleton county, Sunday afternoon, eighteen cars being derailed. The train was in charge of Conductor Frank Bryan, Engineer Leo. McKenney and Fireman Harvey Feeback. Bernard Kenton, 18, of Cynthiana, was stealing a ride, and was caught under one of the cars and badly injured. His leg was crushed, necessitating amputation. He died shortly afterward, confessing that he had pulled the air brake handle causing the wreck. Two companions with him were uninjured. All through trains were detained by way of Maysville, and over the C. & O. tracks to Cincinnati. The wreckage will be cleared by this morning. The Natural Bridge excursion train of fifteen coaches and with about 1,000 excursionists, was detained here until 11:15 p. m., on account of the wreck, and the tourists put in the time seeing Paris. The accident is said to have been caused by the bursting of the air hose under one of the cars, which caused the cars to "buckle" and overturn.

ENGLISH AS SHE ARE SPOKEN.

A number of handsome young women, who, with their escorts had been to Natural Bridge, Sunday, and were detained here for several hours by the wreck on the L. & N. near Falmouth, were admiring the window display in a store close to the News office. One of the party was bemoaning the fate that had stranded them ninety miles from home, when one of the nicest of the girls, a vivacious brunette, spoke up— "Now Mayme, you don't know what trouble is. Here I'm ninety miles from my meal ticket, and I've got a date with him to-night. Say, kids, guess who I've got a date with to-night? Can't you, now, honest? He's sure a peach. Who, Charley? No, not that mutt. This man's a dinger. Nope, never had any dates with him before. Sure am crazy about him, though. Sure got lots of kale that makes the feeds come regular, you know. Honest, he has. I've shook Charley for good. Had a date with that man a week ago, and, honest, girls, he can't talk for fried potatoes. And slow—why, he never even held my hand when I sprung the old gag about it being cold. Who did you say? That's right. Honest, I've got a date with him to-night, and here I am in Paris, Ky., ninety miles from home. O, but this is not the life for me."

And they moved away without offering the poor thing the least bit of consolation.

A Human Churn

When the food reaches the stomach it is subjected to a peculiar churning movement by the muscular walls of the stomach. (See Dr. Pierce's Medical Adviser, page 45). In the liver, kidneys and skin, the blood is purified of its waste materials—these organs act as human filters, leaving the blood pure and clear—unless liver, digestive tract and kidneys are clogged.

Dr. Pierce's Golden Medical Discovery

is a stomach, liver and kidney tonic—by assisting the stomach to assimilate, the liver to filter, the kidneys to act—the poisons are removed, the red blood corpuscles are increased and one feels light, fresh and active instead of logy, dull and heavy. The "Discovery" stimulates the stomach, increases action of heart and arteries and is a most satisfactory alternative in blood-taint of any character. The refreshing influence of this extract of native medicinal plants has been favorably known for over forty years. Everywhere some neighbor can tell you of the good it has done.

Sold by all medicine dealers in liquid or tablet form; or send 50 one-cent stamps to Dr. V. M. PIERCE, Buffalo, N. Y., a trial box will be mailed you.

INTERNATIONAL HARVESTER COMPANY MUST DISSOLVE

At St. Paul, Minn., the International Harvester Company, Wednesday, was declared to be a monopoly in restraint of interstate and foreign trade and was ordered dissolved by a majority decision filed by Judges Smith and Hook in the United States Court.

Judge Walker H. Sanborn dissenting. Unless the \$140,000,000 corporation submit a plan for the dissolution of the combination into at least three independent concerns within ninety days, or in case of appeal within ninety days of the issuance of an appeal mandate from the United States Supreme Court the decision announces that the court will entertain an application for the appointment of a receiver for all the properties of the concern.

The decision of the court was given by Circuit Judge Walter I. Smith, of Iowa, with which Judge William C. Hook, of Kansas, agreed, and from which Judge Walter A. Sanborn, of Minnesota, dissented.

The majority opinion held that the International Harvester Company was from its organization in 1902 in violation of the Sherman law. The original corporation, formed of five concerns, violated the first section of the Sherman act by restraining competition among themselves. The combined organization also tended to monopolize trade in contravention of the second section of this law.

PREVENTION OF HYDROPHOBIA.

To the Peace Officers, Health Officer and the People of Kentucky:

A recent examination of dogs' heads from widely separated sections of the State shows an alarming prevalence of hydrophobia. Under the authority conferred upon it by law, the State Board of Health hereby requests and directs all persons owning valuable dogs to keep them upon their own premises or to have them carefully muzzled, and Sheriffs, Chiefs of Police, Constables and the people generally are hereby requested and directed to destroy, as painlessly as possible, all unmuzzled dogs running at large, with a view to the prevention of hydrophobia. Failure to observe this request is punishable by fine before any magistrate.

Through arrangements with the United States Public Health Service, the State Board of Health is enabled to give the Pasteur treatment at the Bacteriological Laboratory, Bowling Green, Kentucky, without expense, to individuals who have been bitten by rabid dogs or other animals. Dogs' heads suspected of being mad should be sent to the Laboratory, by express prepaid, and the result of the examination will be telephoned or telegraphed.

This board takes this occasion to inform the people of Kentucky that mad stones are useless if one is really bitten by an infected animal. Their use gives a false sense of security and their use is forbidden by law.

Given under our hands and the seal of the State Board of Health, this August 11, 1914.

BIG GUNS INVESTIGATING BOOST-
ERS OF FOOD PRICES IN
NEW YORK.

NEW YORK, August 14.—Mayor
Mitchel and District Attorney Whit-
man set in motion Thursday two in-
vestigations aimed at disclosing and
bringing to punishment the men re-
sponsible for the increasing prices of
foodstuffs, clothing and household
necessities.

There is no longer any belief that
the European war is responsible for
high prices here except in the case
of commodities which originate
abroad or of which the raw product
must be imported.

BLOW UP FORTS; DON'T SUR-
RENDER.

BRUSSELS, Aug. 14.—It was offi-
cially announced here to-day that none
of the Liege forts had capitulated as
had been stated in the German re-
ports. It was declared that the de-
fenders had been instructed to blow
up the forts rather than surrender.

SAY PRICES ARE UNWARRANTED

WASHINGTON, Aug. 14.—While
the House of Representatives, usually
impulsive in passing legislation of
particular interest to the members
themselves, has permitted various
resolutions demanding an investiga-
tion of the sudden increase in the
cost of food products to go through
the ordinary routine of committee as-
signment and consideration, Presi-
dent Wilson suddenly took cogni-
zance of the food situation in this
country Thursday by directing the
Attorney-General and the Secretary
of Commerce to institute an immedi-
ate inquiry with a view to determin-
ing whether or not the advances in
food are justified by economic laws,
and if not, to begin criminal action
against those responsible for forcing
up the cost of living by arbitrary or
artificial means.

In the President's judgment the un-
usually high prices of food now pre-
vailing are unwarranted, and in his
letter to the Attorney-General he dis-
plays deep indignation at what he
considers to be an unjustified attempt
on the part of certain interests and
individuals to reap unusual profits at
the expense of the masses of the peo-
ple.

Secretary of Commerce Redfield is
outspoken in his denunciation of the
"food grabbers." He said that nor-
mal advances in prices could be ex-
pected, but that there was no reason
for such large boosts.

"Artificial or abnormal advances
are not only unpatriotic but damna-
ble," said Secretary Redfield, "and
those engaged in such activities de-
serve the severest punishment. Nor-
mal increases may be looked for, par-
ticularly in the prices of meat."

"It is reasonably certain that the
demand abroad will increase, and
those who hold their supplies will
get higher prices."

The rise of 20 per cent in the price
of automobile tires is pointed out as
an example of what American manu-
facturers are willing to do with Euro-
pean competition eliminated.

Attorney-General McReynolds late
Thursday sent instructions to the
United States District Attorneys at
Cincinnati, Covington, Cleveland, In-
dianapolis, Charleston, Pittsburgh and
other places to inquire without delay
into the food situation in their re-
spective districts and to invoke the
Federal law against all men who may
be violating the statutes in boosting
artificially or cornering food prod-
ucts.

FRENCH GOVERNMENT SEIZES KENTUCKY THOROUGHBREDS

Valuable thoroughbred horses, pur-
chased in the Bluegrass by Phil
Chinn, of Harrodsburg, for the Van-
derbilt stables in Paris, France, are re-
ported to have been confiscated for
army service by the French Govern-
ment. Mr. Chinn is now in England,
and the report is not confirmed.

According to the Harrodsburg Her-
ald these fine horses which he took
from America to France have been
confiscated for use by French cavalry
officers, but it is understood that Mr.
Chinn sold them before the war.

One horse bought for Vanderbilt by
Mr. Chinn cost \$250,000.

John E. Madden, of Fayette has
sold to Louis Winans, the English
horseman, Polish, the crack two-year-
old colt, of Ogden, out of Lucy Glit-
ters. The price paid is not disclosed,
but it is understood to be a good one,
since Polish is considered a likely
favorite for the Futurity to be run
August 29, at Saratoga. He will start
in the colors of the new owner.

COUNCIL PROCEEDINGS.

At a meeting of the Paris City
Council, Thursday evening, Council-
man W. O. Hinton presided as Act-
ing Mayor, in the absence of Mayor
J. T. Hinton, who is spending a few
days at Hot Springs, Ark. The fol-
lowing members were present: Coun-
cilmen W. T. Brooks, Whittington
Mann, George D. Speakes, Jack

Fines suspended 22.50
Fines worked out 27.00

Complaints were made to the Coun-
cil of the inferior and uncertain elec-
tric service being furnished to the
business men and residents of Paris.
The question of whether the Light
Company had the right to abandon
its plant in Paris and secure its elec-
tric power from Lexington was freely
discussed, and the matter was refer-
red to City Attorney W. H. Whitley
for investigation.

The following building permits were
granted:

To Mr. Malachi Flanagan, permit to
erect a frame dwelling house with
slate roof, at the corner of High and
Eleventh streets. Probable cost, \$2,-
000.

able cost, \$800.

INFECTION AND INSECT BITES DANGEROUS.

Mosquitoes, flies and other in-
sects, which breed quickly in garbage
pails, ponds or stagnant matter, barns,
musty places, etc., are carriers of dis-
ease. Every time they bite you, they
inject poison into your system from
which some dread disease may result.
Get a bottle of Sloan's Liniment. It
is antiseptic and a few drops will neu-
tralize the infection caused by insect
bites or rusty nails. Sloan's Linim-
ent disinfects Cuts, Bruises and

Wild Cat in Scotland.

A wild cat has been caught in Ard-
namurchan deer forest, Argyllshire,
Scotland, by a gamekeeper. The ani-
mal is very large, measuring 45 inches
in length. It has a short, bushy tail,
and is dark in color with brown stripes.
It stands high on its legs and has a
very tigerish appearance.

He Felt Encouraged.

"But she says she has never given
you any encouragement." "Did she
say that? She told me that her
uncle was going to leave her a for-
tune, and that he had one foot in
the grave. If that is not encourage-
ment, I'd like to know what you call
it."—Houston Post.

BOYS SUSPECTED OF PLACING TACKS ON HIGHWAY.

Complaints of reckless driving and speeding on the South end of Main street have been made to the city authorities and an effort will be made to apprehend the parties guilty of this violation of the law regulating the auto traffic within the limits of the city.

Numerous instances have been reported to the police, who are powerless to act unless they know the parties or can get the number of the license tag, in which case immediate prosecution will follow. Also it is manifestly impossible for the small police force of this city to cover so large a territory, and be in all parts of it at all times. So the offenders will continue to offend until some one is caught in the act, and made an example of. It is said that the offenders are not all strangers to the community, and that many of these reckless speeding motorists are home-bred products of Oldfields and Oldfielders.

Three young boys, apparently between the ages of nine and twelve, are suspected of placing tacks in the highway on the Lexington pike, between the homes of Mr. C. A. Webber and Mr. William Ardery, as a number of autos, have had tires punctured in the same locality. In every instance these boys have been seen in the neighborhood, and apparently regarding the plight of the motorists as a joke. Dr. Frank Faries' machine pulled up lame the other day at this spot, with eleven large tacks sticking in the tires, and there were three grinning urchins who are under suspicion. Mr. Louis Mussinon's machine suffered a similar fate, with the exception that it was nails, instead of tacks. Three other machines at the same place, whose owners or drivers were not known to Dr. Faries, who saw them in trouble at the same place from the same cause, were brought to the local garages for treatment, where the trouble was diagnosed as "tacks." An effort will be made to get the suspected boys in the clutches of the law.

SALE OF FANCY HORSES.

Hon. Claude M. Thomas sold last Saturday to Ball Bros., the well-known Versailles horsemen, a fine three-year-old mare "Mena," by Baron King, and a three-year-old filly, "Poem," by Baron King. Both animals are fine show horses, and will make a valuable addition to the Ball Bros.' already famous stock farm. The price paid was not made public, but is said to have been a good one.

NOTICE.

Chief of Police Link has received the following communication from State Board of Health, asks that the News publish same and to state that the orders from them will be enforced to the letter. The letter is as follows:

To the Peace Officers, Health Officer and the People of Kentucky: A recent examination of dogs' heads from widely separated sections of the State shows an alarming prevalence of hydrophobia. Under the authority conferred upon it by law, the State Board of Health hereby requests and directs all persons owning valuable dogs to keep them upon their own premises or to have them carefully muzzled, and Sheriffs, Chiefs of Police, Constables and the people generally are hereby requested and directed to destroy, as painlessly as possible, all unmuzzled dogs running at large, with a view to the prevention of hydrophobia. Failure to observe this request is punishable by fine before any magistrate.

Through arrangements with the United States Public Health Service, the State Board of Health is enabled to give the Pasteur treatment at the Bacteriological Laboratory, Bowling Green, Kentucky, without expense, to individuals who have been bitten by rabid dogs or other animals. Dogs' heads suspected of being mad should be sent to the Laboratory, by express prepaid, and the result of the examination will be telephoned or telegraphed.

This board takes this occasion to inform the people of Kentucky that mad stones are useless if one is really bitten by an infected animal. Their use gives a false sense of security and their use is forbidden by law.

Given under our hands and the seal of the State Board of Health, this August 11, 1914.

MATRIMONIAL.

—The following beautiful marriage announcement have been received: "Mr. and Mrs. Jefferson Davis Purcell have the honor of announcing the marriage of their daughter, Mary McIlwaine, to Mr. Stanhope Wiedemann on Saturday, the eleventh of July, one thousand nine hundred and fourteen, at Versailles, Kentucky."

L. & N. AND L. & E. NOW CONNECTED AT LEXINGTON.

The connecting link of railroad between the Lexington & Eastern division and the Paris branch of the Louisville & Nashville, which has been under construction for the last year, and which is intended to facilitate the movement of heavy coal trains, into Lexington, has been completed, and will, it is stated, be put into commission in the next few days.

This line, which is known as the L. & N. "cut-off," is about one mile long, and together with the right of way cost approximately \$40,000. It leaves the L. & E. near Montrose and extends in a northwesterly direction, intersecting the Paris branch at Woods Crossing, back of the Lexington Country Club.

It is said to be the intention of the Lexington & Eastern officials to route all coal trains from Eastern Kentucky coal fields over this link.

COLUMBIA THEATRE—WEDNESDAY, AUG. 19.

On to-morrow, "The Million Dollar Mystery" episode No. 6.—The Coaching Party of the Countess.—The opening finds Braine and the Countess discussing their failures. They discover a strange man watching the Countess' apartment. Alarmed, they decide they must act quickly. They plan another scheme to get not only Florence, but Jones too. Florence is invited by the Countess to a coaching party out to an old mansion—Jones is invited also. The members of the "Black Hundred" gather secretly at the mansion to carry out the fiendish plan. On the way the coaching party meet Norton. Fearing he knew not what, he secretly follows. The plot progresses—Florence is lured into the trap—Norton rescues her aided by Jones. The three start away on horseback, but, being discovered are immediately pursued. Jones stops and by fearless, hazardous tactics delays the pursuers, while Florence and Norton gallop away.

Never before such amazing action in moving pictures—and more startling portrayal will appear as each episode is shown at the Columbia Theatre.

\$10,000 in cash will be given for the best 100 word solution of this great mystery. See the pictures. Read the story in the papers. Follow the developments each week. Then send in your solution.

In connection with the above feature, a two-reel Keystone Comedy will be shown, "The Alarm."

Keystone hasn't turned out anything funnier than this two-part farce in a long time, if ever. As usual, it is rough and tumble, helter-skelter; but the spirit of laughs is behind most of what goes on in it, especially of the second reel. As an offering to the public, it is first class, there can be no doubt at all of that. But it is so full that it would be hard to give a comprehensive account of it. Roscoe Arbuckle is the author and director. It's a scream.

Don't miss this—if you do you will regret it.

BUSINESS IS GOOD.

Too many people are complaining of poor business; be a booster, not a knocker. Help business to get on its feet and it will help you. Begin today by seeing the Gas Company about putting in the pipes for that heater you will need within a very short time. You will appreciate gas for fuel—your neighbor does.

RESIGNS AS AGENT.

After twenty-eight years of continuous service in the employ of the Adams Express Company, as messenger, clerk and agent, Mr. John Dean, who has been the local agent for the company for the past eight or ten years, has resigned his position, and will take a month's rest. Mr. Dean has had a number of fine offers, but had not as yet decided just what he will do. His accounts were checked over to the incoming agent, Mr. E. C. Collier, Saturday, and found to be correct. His successor, Mr. Collier has been a clerk under Mr. Dean for some time.

THE GARTH FUND.

The examination of the beneficiaries of the Garth Fund and the hearing of the reports was conducted at the court house yesterday morning and afternoon by the commissioners, John T. Collins, C. M. Thomas and E. M. Dickson. About twenty-five of the old beneficiaries appeared before the Commissioners for examination. The examination of new applicants will be conducted by the Commissioners at the same place to-day.

ADVERTISEMENT IN THE NEWS BRINGS QUICK RESULTS.

A "lost" advertisement in the News Thursday night for the Friday issue was the means of restoring on Friday morning a ladies' coat that had been lost only the afternoon before. The coat belonged to Miss Brophy, Jackson, Ky., who is visiting her cousin, Miss Brophy, near this city. The papers containing the advertisement had not been on the streets more than a half-hour, when the coat was brought in by a colored man who found it on the street.

It pays to advertise in any paper, but advertising brings quicker results in the Bourbon News. "Now is the time to subscribe."

EXCURSIONISTS SEE PARIS.

The Louisville & Nashville's Sunday excursion train to Natural Bridge was perhaps one of the heaviest ever sent out of the Queen City, fifteen crowded coaches carrying the visitors from the Buckeye State to this noted resort. On account of the wreck near Palmouth the excursionists were held over at Paris until 11:30, when they resumed their journey. The excursionists spent their enforced vacation here in inspecting the city, and all of them were greatly impressed and pleased with Paris. Numbers of them viewed the court house and expressed their admiration for the handsome building.

MAY INSTALL PLANT.

As a result of the frequent interruptions in the electric light service in this city, it is said upon what may be considered reliable authority, that the Alamo Theatre is considering the installation of a complete electric lighting and power plant to furnish current for lighting and for power to the machines in its picture service.

Electrical engineers were here some time ago, making calculations and estimates, which are being revised and held for further consideration. Last Friday night, a slight cloud on the horizon caused the current to suspend operation for sixty-five minutes, leaving the city in darkness and the citizens wrathful, wicked and wrought up.

BURDENS LIFTED.

From Paris Backs—Relief Proved by
Lapse of Time.

Backache is a heavy burden;
Rheumatic pain; urinary ills;
All wear one out.
Often effects of kidney weakness.
No use to cure symptoms,
Relief is but temporary if the
cause remains.

If it's the kidneys, cure the cause.
Doan's Kidney Pills are for kidney ills—
Here's proof of their merit from
this vicinity.

D. M. Farley, merchant, 474 Clair
Avenue, Lexington, Ky., says: "I
had a dull, dragging pain in my
back. The action of my kidneys
was irregular, especially at night.
Finally I used Doan's Kidney Pills
and before long they put a stop to
all these troubles. My kidneys be-
came normal and the pains and
aches left. The endorsement I gave
Doan's Pills in January, 1912, still
holds good. I can only repeat that
they are a fine kidney medicine."

NOT SO STRANGE AFTER ALL.

You may think it strange that so
many people are cured of stomach
trouble by Chamberlain's Tablets.
You would not, however, if you should
give them a trial. They strengthen
and invigorate the stomach and en-
able it to perform its functions natu-
rally. Mrs. Rosie Rish, Wabash, Ind.,
writes, "Nothing did me the least
good until I began using Cham-
berlain's Tablets. It is decidedly the
best medicine for stomach trouble I
have ever used." For sale by all

SEVERE ATTACK OF COLIC CURED.

E. E. Cross, who travels in Virginia
and other Southern States, was taken
suddenly and severely ill with colic.
At the first store he came to the mer-
chant recommended Chamberlain's
Colic, Cholera and Diarrhoea Remedy.
Two doses of it cured him. No one
should leave home on a journey with-

sale by all druggists.

Civilization's Advance.
How timid and puny seem the old-
time roar of the ocean, the crowing of
roosters and the creak of farm wagons
when nowadays, as we linger in some
distant caravansary, we recruit our
wasted energies on hesitation, rag-
time, phonographs, telephone bells
and siren horns.

THE TWENTY YEAR TEST.

"Some twenty years ago I used
Chamberlain's Colic, Cholera and
Diarrhoea Remedy," writes Geo. W.
Brook, publisher of the Enterprise,
Aberdeen, Md. "I discovered that it
was a quick and safe cure for diar-
rhoea. Since then no one can sell me
anything said to be 'just as good.'
During all these years I have used it
and recommended it many times, and
it has never disappointed anyone." For
sale by all dealers.

The Bully and Reason.

The bully depends on main strength.
A bullying nation is as disgusting as
a bullying man. A strong man, mor-
ally and physically, relies on his sense
of justice, a strong nation has "a de-
cent respect to the opinions of man-
kind," and will be as sensitive of its
honor in keeping its word, as
an upright man in his dealings with
others. The bully will not reason.

Find Remains of Aged Woman Surrounded by Pets.

Family of Felines Attack Police When Attempt is Made to Remove Corpse—Father Was at One Time Cashier of a Bank.

Philadelphia.—The body of an aged woman, attired in a dirt-stained wrapper, lying within a circle of cats, was found by two special policemen when they entered an unkempt, dust-covered front room at 640 North Sixteenth street in answer to an anonymous telephone call.

The cats were the only living beings in the house, and the policemen were forced to battle with them before they could move the body of the dead woman. Investigation showed that she was Miss Sarah Lippincott Starr, seventy years old, who, with her sister, Victoria, and a horde of cats, had occupied the house for the last 12 years. Shortly after midnight Miss Victoria Starr, who is sixty-eight years old, came upon her sister lying at full length near the cellar door on the first floor. She did not disturb her for several hours because she thought she was sleeping.

Later when she knew her sister to be dead, she notified her nephew, whose name, she says, is Walter Jordan. He called the policemen of the Twentieth and Buttonwood station.

Miss Victoria was out when the policemen called.

Police Surgeon John H. Egan found that the left arm was discolored and swollen from an infected scratch on the hand. Miss Victoria then returned and explained that her sister had pricked herself three days before with a needle but had refused to have medical aid.

"We never had a doctor in our lives and we weren't going to begin with them," said the sister.

"We were a couple of regular old maids," she said complacently, "but nice ones," she added quickly. And then she lapsed into the present tense as if her sister were still alive. "We love animals, all kinds, birds, dogs, horses, snakes, but especially cats; O, I love 'em, that is, four-legged ones. But I don't like two-legged ones," she mumbled reflectively, and shook her head decisively. "I like rats, too. Those in the cellar get many a scrap from me. Sure I feed 'em, but I have trouble keeping the cats away. Well, I'm all alone now, except for the cats, but I'll scrape along, although money is scarce."

Miss Victoria Starr is now the last of the five children of Samuel Starr, who was the cashier, 25 years ago, of the Bank of the Northern Liberties. The body of her sister, Sarah, was removed to the morgue. Doctor Egan said the death was due to natural causes.

Robbers Ask Postmaster to Keep No More Pennies as They Weigh Too Much.

Branchville, N. J.—When Postmaster William P. Ellett arrived at the post office one morning recently he found the interior in disorder and the following sign painted on the back of a calendar hung over the safe: "Have a heart! What's this place—a kid's toy bank? Wise up! Never keep pennies; they weigh too much."

A hurried investigation showed that the safe had been robbed of about two dollars, all in pennies, which had been left in a drawer at night, after all the silver and bills had been taken home by the postmaster. In a drawer above the one where the pennies were left was \$8 worth of stamps, but these were left undisturbed. The robbers gained entrance by forcing the lock on the front door.

BIG RATTLER CAUSES PANIC

Hundreds Flee Philadelphia Station When the Reptile Appears—Captured and Taken to Zoo.

Philadelphia.—Several hundred persons at the Broad street station of the Pennsylvania railroad were thrown into a panic by the sudden appearance of an eight foot diamond back rattlesnake. Accompanied by the shrieks of frightened women, commuters deserted the train shed and left the rattler in possession. Special officers captured the monster with a bag and took it to the city hall, where it was turned over to the zoological garden authorities. It is not known where the snake came from, but it is believed it arrived here in a car load of tropical fruit.

LINEMAN ASLEEP ON POLE

Many People in Oregon Town Thought That He Had Been Electro-cuted.

Pendleton, Ore.—M. Morgan, a local telephone lineman, caused a commotion at the intersection of Main and Bluff streets when he fell asleep at the top of a telephone pole.

Passersby, seeing the motionless figure of a man lying across the cross-arm with arms and legs dangling in the air, thought he had been electrocuted. When assistance arrived it was found the man had merely been lulled to sleep by the warm sun. His belt prevented his falling.

LUKE McLUKE SAYS

(Cincinnati-Ensuirer.)

Every woman is quick to detect flattery when it is applied to some other woman.

While a man may not openly regret having married his wife, he often secretly wonders why he married her.

The one good thing about every man is his own opinion of himself.

No real boy is ever tempted to steal the sort of a dog that a woman carries around in her arms and kisses.

What has become of the old-fashioned house who used to throw glasses through the mirror back of the bar?

If the Weather Forecaster says it will be fair to-morrow and a man bets that it will rain and it does rain the man spends the next six months

Use for Lily Leaves.

A powder made from the leaves of water lilies is successful in making various fabrics waterproof. The inventor of the powder noticing that water was not absorbed when it fell on the leaves, but slid off, conceived the idea that the same substance which made the lily leaf waterproof might be used in connection with fabrics. The powder from the leaves is mixed with water, and the process consists in immersing the fabric in this mixture.

Five of a June Morning.

Got up before five and went down to replant corn. As I topped the hill the crows flew off, cawing angrily. "This is our time," they seemed to say. Found hill after hill scratched over and the sprouting corn scattered about. At 5 a. m. in June one has the weather of 9 a. m. in October or high noon in December.—From "A Farmer's Note Book," by C. E. D. Phelps.

Division of Labor.

While it takes 40 persons to make a washboard, 120 to make a shoe, somewhere between fifty and sixty to construct a corset, a score or more to manufacture a single pair of overalls, and equal numbers to produce other simple articles in daily use, the task of proportioning to the worker a fair wage for his or her exertions is not so simple a matter as some would have us believe. But a fair division would be a much easier problem to solve were each worker placed on an equality in bargaining.

Our Dwelling Place.

The earth is not a place of atonement; it is that dwelling place of ours where we must toil for the achievement of the ideal truth and justice—the ideal of which the rudiments are hidden in every man's soul.—Mazzini.

Bones of Prehistoric Animals.

Horn and bones of a wild ox and the antler of a red deer, both prehistoric animals, have been found during dredging in the river Thames at Marlow, Buckinghamshire, England.

An Amateur.

"Some saintly folk in this town are always throwing the game of poker at our unoffending head," says a Georgia editor. "We want to say, once for all, that we don't know the game. If we had known it we'd be richer, at this writing, by a house and lot, a gold watch and chain, and a real diamond stud."

THE CASE OF L. L. CANTELOU.

The case of L. L. Cantelou, Clarendon, Texas, is similar to that of many others who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says, "After trying a doctor for several months, and using different kinds of medicine for my wife who had been troubled with severe bowel complaint for several months, I bought a 25c bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured." For sale by all dealers.

Scouring Paste.

To make a good scouring mixture for boards, work into a paste half a pound of soft soap, half a pound of sand and a quarter of a pound of lime. Put it on with a scrubbing brush instead of soap, and then wash off with plenty of clean water.

SUMMER CONSTIPATION DANGEROUS.

Constipation in Summer-time is more dangerous than in the fall, winter or spring. The food you eat is often contaminated and is more likely to ferment in your stomach. Then you are apt to drink much cold water, thus injuring your stomach. Colic, Fever, Ptomaine Poisoning and other ills are natural results. Po-Do-Lax will keep you well, as it increases the bile, the natural laxative, which rids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better. Pleasant and effective. Take a dose to-night. 50c, at your Druggist.
